	Natural Resource Governance Institute, Open	Disclosing contracts in the natural resource sector OGP Openness in Natural Resources Working Group, Issue Brief, February 2016. A product of the close collaboration of the working group's co-	This brief aims to provide an overview of current standards and practices, and outline concrete examples of contract disclosure in action.

	<i>Government Partnership and World Resources Institute</i>	anchors: the governments of Mexico and Indonesia, the World Resources Institute, and the Natural Resource Governance Institute http://www.opengovpartnership.org/sites/default/files/FIN%20OGP%20Issue%20Brief%20K%20Disc_0.pdf	
	<i>Natural Resource Governance Institute</i>	Natural Resource Charter, Second Edition https://resourcegovernance.org/sites/default/files/NRCJ1193_natural_resource_charter_19.6.14.pdf	The Natural Resource Charter offers policy options and practical advice for governments, societies and the international community on how best to manage resource wealth. Such guidance can ensure that resource-rich countries are not alone in facing these challenges, but rather that they can draw on accumulated experience to learn from history and avoid the mistakes of the past. The charter is not a precise prescription, but instead explores approaches that successful countries have used, in different contexts and combinations, to realize the development potential of natural resource wealth
